MAKING MONEY

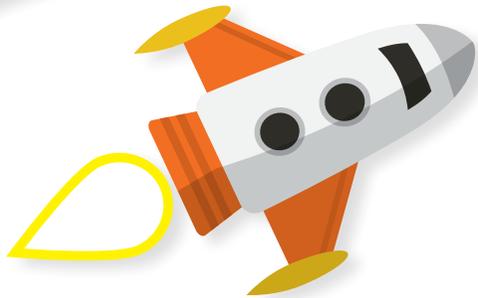

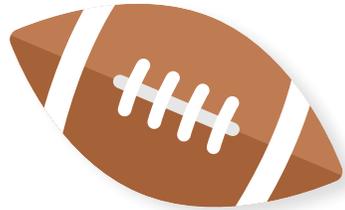

BROUGHT TO YOU BY

Addition
FINANCIAL

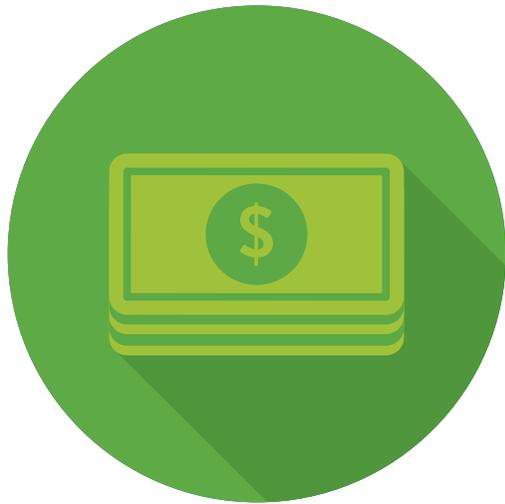

Discover your
DREAM JOB

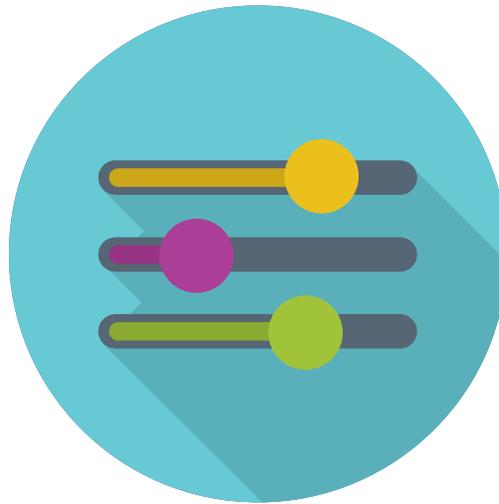

What do you want to be when you grow up?

If you want your career dreams to come true,
think about three things:

Income

Skills

Passion

Think about your
INCOME

**Income is the money you earn
when an employer hires you to work at a job**

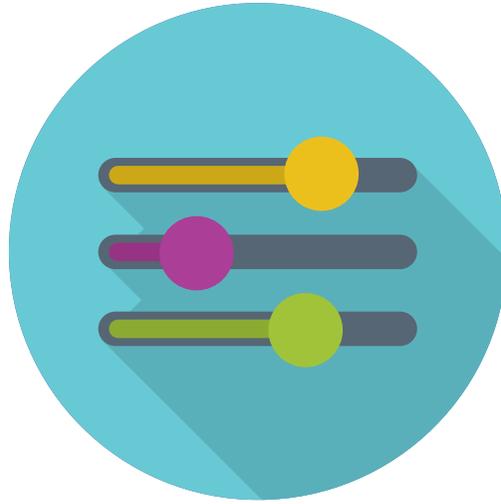

ASK YOURSELF:

**Does your dream job pay well, or
does your dream job have low pay?**

Your dream job doesn't have to make you rich,
but it needs to provide food, shelter and
a lifestyle that makes you happy

Think about your
SKILLS

Skills are the things you do well.
Some skills come naturally, while others
are learned over time.

ASK YOURSELF:

**Does your dream job use
any of the skills you have?**

**What other skills
would you have to learn?**

Think about your
PASSION

**Career passion is the positive connection
you have to your work.
Without it, a job can feel boring or stressful.**

ASK YOURSELF:

What do you like learning about?

What do you enjoy doing?

Does your dream job match your passion?

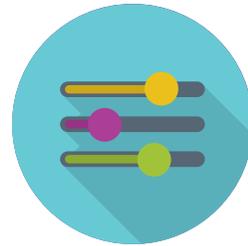

Topic

SUMMARY

Your career is
a combination
of three things:

Income

Skills

Passion
